**Subject:** FW: ADEM UST Regulations\_DRAFT  
**Attachments:** ADEM Regs-UST Div 15 EPA 2016 FINAL DRAFT changes NOT accepted 3-30-17.docx

**Importance:** High

Good afternoon Ben & Terry,

This is a draft version of our proposed regulations intended to meet the October, 2015 federal rule equivalency. I believe it is in the red underline-strikethrough format but it does not appear that way to me. There is probably some adjustments on the computer that show it that way. If you can't see it that way contact me & I'll see if I can get an explanation for you.

We'd appreciate feedback when possible as to whether you believe our regulations are sufficient for federal equivalence, and if not what we need to address.

I will provide the draft crosswalk shortly (a week or so I believe).

We have also provided this version of the regulations to stakeholders. We are asking for comments back from them by May 5.

If we receive any comments we can accommodate we will consider them and revise as necessary. After that, we will begin the formal rule making process.

We will begin the SPA application concurrently w/ the formal rule making process. Clethes Stallworth will play a significant role in our SPA application. Clethes is Chief of the Environmental Services Branch of Land Division.

Regarding the "streamlined" SPA process we have been hearing about, can you provide any insight as to how it differs from conventional SPA? We have a meeting w/ Clethes early next week & I would like to be able to outline some of the streamline details.

**Subject:** Update to the "Final" UST Reg Revisions Dated 3/28/17

When looking over the crosswalk, I noticed a rule cite missing in one of our rules. I have added the cite in the attached. Please make sure you don't send out the UST "Final" revisions dated 3/28/17. Instead, send out the attached reg files with today's day.

Thanks,

*Curt D. Johnson*
